Product Specification

- Connection Mode: Wired / 2.4G / BT
- Sensor: 3311
- DPI: 800 / 1600 / 2400 / 4800 / 7200 / 12000
- Polling Rate: 1000Hz
- Battery Capacity: 500mAh
- Rated Input: 5V \approx 21mA
- Product Size: 120.5 \times 60.1 \times 38 \pm 2mm
- Product Weight: Approx. 55g
- Compatible Operating Systems: Windows XP / Vista / 7 / 8 / 10 / 11
- Charging Interface: Type-C

Product Functions and Instructions

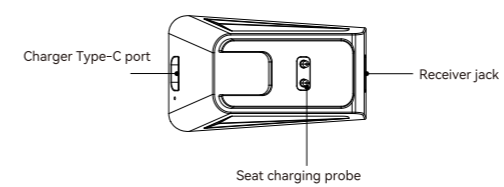

Wired mode	Regardless of the current connection mode, once a TYPE-C cable is plugged in, the mouse will automatically switch to wired mode and begin charging.
2.4G mode	Slide the mode switch on the bottom of the mouse upward to enter 2.4G mode.(The 2.4G receiver is pre-paired at the factory.If your device has a built-in receiver socket, simply plug it in to use. To enter pairing mode in 2.4G: press and hold the Left Button + Middle Scroll Wheel Button + Right Button simultaneously for 5 seconds. The pairing indicator light on the bottom will flash green rapidly. Then, plug in the 2.4G receiver to complete pairing. Once paired, the indicator light will turn off.
BT mode	Slide the mode switch on the bottom of the mouse downward to enter BT mode. To enter BT pairing mode: press and hold the Left Button + Middle Scroll Wheel Button + Right Button simultaneously for 5 seconds. The pairing indicator light on the bottom will flash blue rapidly. After successful pairing, the indicator light will turn off.

Sleep mode	After 10 seconds of inactivity (no movement), the mouse will enter a light sleep state. Moving the mouse or pressing any button will wake it up. After 5 minutes of inactivity, the mouse will enter deep sleep mode. Pressing any button will wake it up.(The deep sleep timer can be customized in the driver software.)
